Sutro Stewards is a project of the San Francisco Parks Alliance,
a 501(c)3 California nonprofit public benefit corporation.
PROGRAMS
The Conservation Program protects native plant populations. Volunteers remove invasive weeds and replant native species to increase biodiversity and attract pollinators and other wildlife.

Mount Sutro Native Plant Nursery grows about 6,000 plants, representing over 100 native species. Extra plants are available for sale to the public.

Public Education Programs include guided hikes, talks and tours, team-building events, youth service projects, and crew leader training.

The Trails Program maintains, restores, and builds trails that provide access to quality open space. Sutro Stewards has built and maintained roughly 4 miles of multi-use trails for hikers, trail runners, and cyclists.

SUTRO STEWARDS
Mount Sutro is a remarkable refuge in the heart of San Francisco with over four miles of multi-use trails for hiking, biking, and enjoying this extraordinary place. Since 2006, Sutro Stewards has worked with thousands of volunteers to build trails, introducing the public to this urban oasis.

The mission of Sutro Stewards is to conserve habitat through ecological restoration and native plant propagation while improving recreation and access to the 61-acre UCSF Mount Sutro Open Space Reserve.

Come see it for yourself!

GET INVOLVED!
Want to contribute to Mount Sutro? Join us for a volunteer event to work on trail, habitat, and nursery projects, or join us on a guided tour to learn more about the plants, history, and habitat found here.
